

COMMON CASES — District Judge Bill Filmore shared with students in Coach Murphy's Driver's Education course at Carroll High School recently. Filmore handles the Traffic Division of District Court in Dale County and he went over some of the common cases that he sees each month. More than 4,400 traffic cases come through the District Court each year ranging from DUI to improper window tint. Several of the cases each month involve students who make driving errors due to their lack of experience. Filmore covered many of the driving laws on the books and what offenders can expect for such violations in Dale County.
